

**Dave P., 22, TBI Survivor, Boston, Maine, Hawaii and Sandwich, MA**

Coming out of a 9 month stay in a rehab hospital after suffering a brain injury with intense atrophy, my Satin Wellness Specialist changed my life.

During those 9 months, I could not even support his neck and could barely walk.

By the time I came home I couldn't do much more than walk and was still very weak.

Satin Wellness changed all that by bringing his brain, body, muscles, and strength back, but infinitely more important we showed me how capable I was. The LROME program is amazing!

I got new confidence which was hard to find, especially after a traumatic injury.

The time we spent together was full of laughs and smiles, well encouraged work and helped to get me back and then some. I am heading off to college on my own!
