

Dr. James C, 78, Allergist, Boston and Osterville, MA - 7 year client

Dear Satin Wellness Team, Thank you for the signal role you all played helping me recover from two major health issues.

At the age of 75 most people have retired. As a practicing physician it has been critical for you as a team to assist me in maintaining my health and fitness level. After suffering a major M.I. as well as developing stomach cancer, I figured my days of practicing were over.

After working with you to regain my strength and energy level it is a testament to all of you that I am practicing full time again and I am back to playing golf!

My team of physicians are amazed that I made it back, me too!

I look forward to working with all of you well into the future and I am a believer in “Strength to Live”!
