“I was a former cyclist and Triathlete who suffered a severe traumatic brain injury in an automobile accident ten years ago.

My prognoses while in a five month coma was pessimistic - even to survive.

I had therapy periodically, but that has been sporadic and has essentially stopped.

Enter Satin Wellness - who has changed my life!

“Your constant and consistent training coupled with positive verbal driving has made my progress to where I am walking up and down stairs, riding a bike alone, and kayaking. I continue to climb the hill toward returning to an ever-increasing functional life - and I recognize that this is the most important thing to me.”
